August 2017

Dear Parent or Guardian:

Children need healthy meals to learn. To that end, New Hyde Park-Garden City Park Schools will offer a healthy lunch every school day starting on the first day of school, September 5, 2017. Lunch will cost \$3.00.

Children from households that meet Federal income guidelines are eligible for free lunch or reduced price lunch. Reduced price lunch costs each eligible student \$.25. To apply for free or reduced price lunch, please complete the enclosed application, sign it, and return it to the main office of your child's school as soon as possible. Please refer to the guidelines and complete all required information when completing the application. Incomplete applications will not be approved.

To run the lunch program efficiently and minimize the handling of cash, the District offers My School Bucks, an online pre-payment system for use via credit card. The link can be found on our district website at www.nhp-gcp.org under Calendars>Lunch Menus (scroll to bottom and click on myschoolbucks). There is a \$1.95 service fee for every charge. Please be advised there will be no refunds for unspent pre-paid balances. Any leftover balances will not be carried into the next year.

If you prefer to pay with a check, please make it payable to the NHP-GCP UFSD Lunch Fund. If you are paying in cash for one day or several days, please place the exact amount in an envelope, as no change will be given. Your child should bring this envelope in the morning and give it to the classroom teacher.

Milk (\$.25) and water (\$.75) will be available for purchase each day in the cafeteria. Please provide your child with exact change.

If your child has any food allergies, it is advised that you to provide your child with lunch from home so as to avoid any concerns or discomfort for your child.

Our schools' food service helpers are District employees and trained to provide this service to our students.

If you have any questions, please contact the principal in your child's school.

Thank you,

Jennifer Morrison, Ed.D.
Superintendent

Please sign and return to the Superintendent's Office by September 15, 2017.

I understand and acknowledge that the District will not allow refunds for unspent pre-paid balances and that any leftover balances at the end of the year will not be carried into the next year.

How to Apply: To get free or reduced price meals for your children carefully complete one application for your household and return it to the designated office. If you now receive SNAP, Temporary Assistance to Needy Families (TANF) for any children, or participate in the Food Distribution Program on Indian Reservations (FDPIR), the application must include the children's names, the household SNAP, TANF or FDPIR case number and the signature of an adult household member. All children should be listed on the same application. If you do not list a SNAP, TANF or FDPIR case number for all the children for whom you are applying, the application must include the names of everyone in the household, the amount of income each household member, and how often it is received and where it comes from. It must include the signature of an adult household member and the last four digits of that adult's social security number, or check the box if the adult does not have a social security number. An application that is not complete cannot be approved. Contact your local Department of Social Services for your SNAP or TANF case number or complete the income portion of the application.

Reporting Changes: The benefits that you are approved for at the time of application are effective for the entire school year. You no longer need to report changes for an increase in income or decrease in household size, or if you no longer receive SNAP.

Income Exclusions: The value of any child care provided or arranged, or any amount received as payment for such child care or reimbursement for costs incurred for such care under the Child Care Development (Block Grant) Fund should not be considered as income for this program.

Nondiscrimination Statement: This explains what to do if you believe you have been treated unfairly.

Meal Service to Children With Disabilities: Federal regulations require schools and institutions to serve meals at no extra charge to children with a disability which may restrict their diet. A student with a disability is defined in 7CFR Part 15b.3 of Federal regulations, as one who has a physical or mental impairment which substantially limits one or more major life activities. Major life activities are defined to include functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working. You must request the special meals from the school and provide the school with medical certification from a medical doctor. If you believe your child needs substitutions because of a disability, please get in touch with us for further information, as there is specific information that the medical certification must contain.

Confidentiality: The United States Department of Agriculture has approved the release of students names and eligibility status, without parent/guardian consent, to persons directly connected with the administration or enforcement of federal education programs such as Title I and the National Assessment of Educational Progress (NAEP), which are United States Department of Education programs used to determine areas such as the allocation of funds to schools, to evaluate socioeconomic status of the school's attendance area, and to assess educational progress. Information may also be released to State health or State education programs administered by the State agency or local education agency, provided the State or local education agency administers the program, and federal State or local nutrition programs similar to the National School Lunch Program. Additionally, all information contained in the free and reduced price application may be released to persons directly connected with the administration or enforcement of programs authorized under the National School Lunch Act (NSLA) or Child Nutrition Act (CNA); including the National School Lunch and School Breakfast Programs, the Special Milk Program, the Child and Adult Care Food Program, Summer Food Service Program and the Special Supplemental Nutrition Program for Women Infants and Children (WIC); the Comptroller General of the United States for audit purposes, and federal, State or local law enforcement officials investigating alleged violation of the programs under the NSLA or CNA.

Reapplication: You may apply for benefits any time during the school year. Also, if you are not eligible now, but during the school year become unemployed, have a decrease in household income, or an increase in family size you may request and complete an application at that time.

The disclosure of eligibility information not specifically authorized by the NSLA requires a written consent statement from the parent/guardian. We will let you know when your application is approved or denied.

Sincerely,

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST)**School Food Service Program (Lunch and Breakfast)**

The Board has entered into an agreement with the New York State Education Department to participate in the National School Lunch Program, School Breakfast Program and/or Special Milk Program to receive commodities donated by the Department of Agriculture and to accept responsibility for providing free and reduced price meals to elementary students in the schools of the District.

The Superintendent or designee will have the responsibility to carry out the rules of the School Lunch and Breakfast Programs. The determination of which students are eligible is the responsibility of the Reviewing Official and Verification Official or the Office of Temporary and Disability Assistance of the Department of Social Services. Appeals regarding eligibility should be submitted to the Hearing Official of the District.

Free or reduced price meals may be allowed for qualifying students attending District schools upon receipt of a written application from the student's parent or guardian or a "Direct Certification" letter from the New York State Office of Temporary and Disability Assistance (OTDA). Applications will be provided by the School District to all families.

School officials must also determine eligibility for free/reduced meals and milk by using the Direct Certification Matching Process, a dataset supplied by the Office of Temporary and Disability Assistance, and made available by the State Education Department. Any student receiving federal assistance through Supplemental Nutrition Assistance Program (SNAP) or Temporary Assistance to Needy Families (TANF) is automatically eligible for free meals and milk. There is no need for families to complete further applications. The District will notify parents or guardians of such eligibility, giving them the opportunity to decline free meals and milk if they so choose.

Procedures for the administration of the free and reduced price meal program of this School District will be the same as those prescribed in current state and federal laws and regulations.

Child Nutrition Program

Since the District participates in the Child Nutrition Program, the Board approves the establishment of a system to allow a student to charge a meal. The Board authorizes the Superintendent to develop rules which address:

- a) What can be charged;
- b) The limit on the number of charges per student;
- c) The system used for identifying and recording charged meals;

(Continued)

Non-Instructional/Business
Operations**SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST) (Cont'd.)**

- d) The system used for collection of repayments; and
- e) Ongoing communication of the policy to parents and students. The District's meal charge policies and procedures will be distributed to all households and applicable staff in writing at the start of each school year and to new households that transfer into the District during the school year. These policies and procedures may vary by grade.

Negative Balances (Charging Meals)

- a) Students may charge up to the value of one meal, and will not be permitted to exceed that limit until the outstanding balance is paid in full; Parents are to be notified of a negative account balance in a timely manner. Parents should also be notified when a student's account balance that is pre-paid reaches the value of 2 meals in order to give the parent ample time to replenish the account before going negative.
- b) The only item(s) permitted to be charged are a complete meal or milk. A la carte items such as water or snacks may not be charged;
- c) The District's point of sale system will track all charges and payments;
- d) The District does not allow for account balances to be refunded unless the Superintendent determines there is an extenuating circumstance such as a student whose account was funded gets designated as a student who is to receive free meals. Parents are to be notified via letter from the Superintendent so that they are careful not to overfund their accounts.
- e) The District does not allow for carryover of account balances from one year to the next. Parents are to be notified via letter from the Superintendent so that they are careful not to overfund their accounts.
- f) Once the charge limit has been reached, and if the student comes to school without a lunch, a cereal and milk, along with a fruit will be offered to the student so that he or she does not go hungry that day;
- g) If, after exceeding the allowable meal charge limit, a student continues to come to school without a meal, District administration may contact Social Services.

Unpaid meal charges will be addressed directly with the child's parent or guardian who is responsible for providing funds for meal purchases. District administration will further consider the benefits of attempted collections and the costs that would be expended in collection attempts.

Restriction of Sweetened Foods in School

The sale of sweetened foods will be prohibited from the beginning of the school day until the end of the last scheduled meal period.

Sweetened foods consist of sweetened soda water, chewing gum, candy, including hard candy, jellies, gum, marshmallow candies, fondant, licorice, spun candy, candy coated popcorn, and water ices except those which contain fruit or fruit juices.

(Continued)

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST) (Cont'd.)**Restrictions on Sale of Milk Prohibited**

Schools that participate in the National School Lunch Program may not directly or indirectly restrict the sale or marketing of fluid milk products at any time or in any place on school premises or at school-sponsored events.

Food Substitutions for Children with Disabilities

Federal regulations governing the operation of Child Nutrition Programs, Part B of the Individuals with Disabilities Education Act, and Section 504 of the Rehabilitation Act of 1973 require that children with disabilities be offered the opportunity to participate in all academic and nonacademic activities including the school nutrition programs. The District will make reasonable accommodations to those children with disabilities whose disabilities restrict their diets, such as providing substitutions and/or modifications in the regular meal patterns. Such meal substitutions for students with disabilities will be offered at no extra charge. A student with a disability must be provided substitutions in food when that need is supported by a statement signed by a physician attesting to the need for the substitutions and recommending alternate foods.

However, the school food service is not required to provide meal services (for example, School Breakfast Program) to students with disabilities when the meal service is not normally available to the general student body, unless a meal service is required under the student's individualized education program (IEP) or Section 504 Accommodation Plan as mandated by a physician's written instructions.

Food Substitutions for Nondisabled Children

Though not required, the District will also allow substitutions for non-disabled children who are unable to consume the regular meal because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority.

The District may also allow substitutions for fluid milk with a non-dairy beverage that is nutritionally equivalent (as established by the Secretary of Agriculture) to fluid milk and meets nutritional standards for students who are unable to consume fluid milk because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority or by the student's parent/legal guardian.

Prohibition Against Adults Charging Meals

Adult sales may only take place if the district obtains a sales tax identification number. Adults should pay for their meals at the time of service or set up pre-paid accounts.

**SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST) (Cont'd.)
HACCP-Based Food Safety Program**

Schools participating in the National School Lunch and/or School Breakfast programs are required to implement a food safety program based on Hazard Analysis and Critical Control Point (HACCP) principles. The District must develop a written food safety program for each of its food preparation and service facilities that is based on *either* traditional HACCP principles *or* the "Process Approach" to HACCP. (The "Process Approach" simplifies traditional HACCP by grouping foods according to preparation process and applying the same control measures to all menu items within the group, rather than developing an HACCP plan for each item.) Regardless of the implementation option that is selected, the District's written food safety program must also include: critical control points and critical limits; monitoring procedures; corrective actions; verification procedures; recordkeeping requirements; and periodic review and food safety program revision.
